

YOUNG ENTREPRENEURS PROGRAM

Project X Transformation provides opportunities for our youth to explore opportunities to become entrepreneurs. Entrepreneurship is essential for the existence of distressed communities and provides new pathways of wealth development not previously obtained. What we offer is the following:

- Business area of interest assessment
- Business formation
- Business plan
- Knowing your competition
- Social Media Marketing
- Project X Business Launch

Young entrepreneurs meet once monthly to develop their personal business interests, see case studies of successful entrepreneurship, visit companies that demonstrate a solid example of growth and success. We also take our entrepreneurs to companies that sponsor our programs and invite us to their facilities.

We look forward to the partnership with you as we produce leadership that will be independent, self-sufficient and productive citizens in society.
